

Using the internet safely @ BHS

Technology is an important part of our world, from tablets & phones, cameras & speakers. They help us in lots of ways, but it is important that we think carefully about how to use them safely.

Tips to stay safe online!

Tell a grown up if something happens that makes you sad, scared or worried.

Only use the internet and our devices when an adult gives us permission.

Don't tell people your personal information

Don't reply to strangers, and only talk to your friends and family.
